

WORLD UNREST CAUSES HIGH COST OF LIVING

ARREST 5 YOUNG ASHTON MEN FOR CARRYING BOOZE

Purchased it for \$4.00 a Pint in LaSalle They Admit.

An argument which arose over the question of ownership of a pint bottle of whiskey on the streets of Ashton last evening led to the arrest of five young men from that place. Town Marshal William Farber was attracted to an automobile about 10 o'clock last night where loud words were being spoken and when he arrived on the scene, Nicholas Meister and Will Ranky were engaged in a heated argument over the remainder of what had been a pint of whiskey. There were five men in the party but the marshal, arrested Meister and then telephoned to the county jail, giving an account of the affair.

Two Fined \$50 and Costs. Sheriff Schoenholz, Deputy Phillips and Turnkey Miller went to Ashton and once and brought Meister back to Dixon after investigating the case. This morning Marshal Farber and Deputy Sheriff Krug brought Ranky to Dixon and both were taken before Judge John Crabtree in the county court where they were charged with transporting liquor on public highways. Both were assessed fines of \$50 and costs each which was paid. Bench warrants were then issued for the arrest of Thomas Gilbert, Paul Pfetzing and George Schreiber, the other three members of the party who were to be brought into court this afternoon.

Ranky and Meister admitted in court this morning that they went to LaSalle yesterday afternoon and purchased the whiskey in pint bottles at a saloon located near the Rock Island depot. The liquor was offered to them at the fancy price of \$4 a pint for bonded goods and \$3 for the ordinary bar whiskey. Two pints of the bonded liquor were brought into court and offered as evidence in the case this morning. Both Ranky and Meister purchased a pint to bring home with them neither of the men having knowledge of the other's purchase. When they arrived home Meister thought Ranky was trying to steal his bottle and vice versa. This brought on the argument which ultimately resulted in the arrest of the entire party.

Allied Troops Will Occupy Silesia Soon

By Associated Press Leased Wire. London, Sept. 9.—Upper Silesia, where serious conflicts are in progress between the Polish and German elements in anticipation of the proposed plebiscite over the transfer of the territory in Poland, will be occupied in the near future by allied troops, according to a statement made by General Dupont to refugees and insurgents in the region, it was learned today on semi-official authority.

General Dupont, representing France, General Macdonald, Great Britain; General Benvenuto, Italy, and Colonel Good year, the United States, after visiting the camps in the region, are declared to have telegraphed to Paris urging the necessity of this action.

Kolchak Did Not Ask Japanese Assistance

By Associated Press Leased Wire. Washington, Sept. 9.—Counselor Debuchi, charge of the Japanese embassy today authorized categorical denial of a statement attributed to bolshevik sources in Moscow that Admiral Kolchak had applied to Japan for help, ordering in return the northern portion of the island of Saghalien and the Ussuri valley on the mainland of Siberia.

Mr. Debuchi pointed out that Admiral Kolchak could not make a binding pledge relating to Russian territory, and that Japan has been all along giving aid all possible.

Beef Up Two Cents in N. Y. Price List

By Associated Press Leased Wire. New York, Sept. 9.—An increase of two cents a pound in virtually all cuts of beef and lamb was added in the new fair price list issued here today by Arthur Williams, federal food administrator. No increase appeared in the grocery list and pork was quoted from one-half cent to one cent lower.

No reason was given for the increase in the price of beef and lamb, but last week Mr. Williams stated that an advance in certain commodities was due to "certain movements in the market over which we have no control."

Chicago Argues Case Against Commission

By Associated Press Leased Wire. Springfield, Ill., Sept. 9.—Motions of the city of Chicago in the city's appeal from the order of the public utilities commission granting fare increases to Chicago traction lines, will be argued in the Sangamon county circuit court here this afternoon.

REPUBLICANS SELECT TWELVE DELEGATES TO JUDICIAL CONVENTION

County Committee Meets Here Today—Luncheon at Graybill Lodge.

Delegates to the judicial district convention at Freeport to be held September 15, were selected this morning at a meeting of the county republican committee and chairman, held in the county court room at the court house at 11 o'clock. The meeting was called to order by Chairman Harry Warner and on motion by Attorney William Leech of Amboy, a committee of three were appointed by the chair to bring in the list of delegates to the Freeport convention together with the alternates.

Lee county is entitled to 12 delegates at the Freeport convention when a successor will be named from this judicial district to succeed the late Judge James S. Baume. The committee appointed by Chairman Warner was composed of John Yetter of Steward, Alex Sauer of Amboy and Ernest S. Dysart of Natchez.

The committee after short deliberation presented their report naming the following delegates to the convention at Freeport: Harry Edwards, H. C. Warner, John B. Crabtree, E. H. Brewster, A. G. Harris, Mark C. Keller, Martin J. Ganpoff, William L. Leech, George B. Shaw, M. M. Fell, Edward F. Guffin and Howard S. Kegwin.

Alternates were named in the following order: W. W. Webber, B. E. Friel, Alton Sauer, George Stephan, John E. Moyer, C. P. Welty, W. F. Preston, Otto Koehler, H. H. Heinz, M. V. Peterman, C. F. Dewey and William C. Thompson.

It was unanimously voted to authorize the Lee county delegates present at the convention at Freeport next week to cast the votes for the entire Lee County delegation. Following the naming of delegates and alternates, the meeting adjourned, all present, numbering about 30 in all, being the guests of Attorney Harry Warner at an informal luncheon at the Graybill lodge at Low ell park.

MRS. CHARLES WELTY, HARMON, PASSES AWAY

Mrs. Charles Welty of Marion township passed away at the hospital in this city last evening at 10 o'clock death resulting from a lingering illness of two months duration, seven weeks of which she had spent in the Dixon hospital.

Mrs. Welty was born in Bureau county and was 56 years of age. She was united in marriage to Charles Welty in 1884 and since that time had made her home in Marion township, where she enjoyed a wide acquaintance. Besides her husband she leaves to mourn her loss, four daughters, Frances, Anna, Helen and Adelaide and two sons, George and David. The funeral will be held Thursday morning at 9 o'clock from the Catholic church at Walton, Rev. Father Conley officiating. Interment will be made in Oakwood cemetery.

Business Men and Farmers Talk Over Industrial Topics

By Associated Press Leased Wire. Chicago, Sept. 8.—With the announced intention of defining what legislation should be adopted to allay the present social unrest, high cost of living and industrial distress in this country, more than 500 prominent business men, farmers, financiers and transportation experts met here today in an "our country first" conference under auspices of the Illinois Manufacturers' Association.

The delegates to the conference, which will last two days, represented the manufacturing associations of 38 states, the American bankers' association, many state bankers' associations, and farmer organizations from all sections of the country.

5 STRIKERS DIE IN BATTLE WITH HAMMOND POLICE

Fifteen Workers Hurt in Short Fight—No Troops Called.

By Associated Press Leased Wire. Hammond, Ind., Sept. 9.—Five strikers were killed and 15 wounded today in a battle between 1,000 former employees of the Standard Steel Car company and the police.

Two months ago 2,000 workmen at the plant went on a strike for increased wages and improved working conditions. Five weeks ago there was a riot between strikers and the police in which a number of persons were injured and Governor Goodrich sent a regiment of the Indiana state militia to Hammond to restore order. The troops were withdrawn about two weeks ago.

200 Return to Work. Yesterday 200 strikers returned to work. Today, while these men were on their way to work, a crowd of 1,000 foreign born strikers gathered in the street several blocks from the plant of the Standard Steel Car company and threatened them.

Twenty policemen and twenty special guards employed by the company were rushed to the scene and the crowd ordered to disperse. The orders were greeted with jeers and shouts of "scab."

Police retaliated by firing about 15 shots into the crowd, killing five and wounding fifteen strikers. Later, the strike leaders were taken into custody and taken to jail.

None of the policemen or special guards was wounded in the fight. According to the police, the mob of strikers was led by Lieutenant Thomas Skuba, 21 years old, a Pole who recently was discharged from the United States army. He wore his soldier uniform and carried an American flag, which he waved during the fight. Later he was arrested.

The fight lasted 10 minutes, the mob holding its ground until five of its members had been shot down and fifteen wounded. The strikers, according to the police, threw sticks and stones when ordered to disperse. Patrolman Fred Hesterman sustained a fracture of his right arm by being hit with a brick before any shots were fired by the police, according to Captain Strong.

The police assert that at least half a dozen shots were fired by the mob before they returned the fire. After the first few volleys had been fired by the police and support guards, the crowd scattered and ran for cover.

The authorities are taking precautions against a recurrence of the trouble while the 200 strikers who returned to work leave the company's plant this evening.

If there is any further outbreak it is said the authorities will appeal to Governor Goodrich for the return of the Indiana state troops.

100 Deputies Sworn In. One hundred additional deputy sheriffs were sworn in this afternoon by Sheriff Lew Barnes to aid in policing the riot district. At a conference of police and county officials it was decided not to call for state troops at present.

The strikers have called a mass meeting at Coy's park for this afternoon. Strikers have been placed around the park as sentinels and only those desired in the meeting will be permitted to enter.

Seven of the riot leaders, all of them Hungarians, have been arrested and placed in jail.

Hammond physicians have dressed wounds of fifty persons, most of the injuries being slight, it was said. The first report of fifteen wounded included only the serious cases.

Germany Will Award Prisoners Iron Crosses

By Associated Press Leased Wire. With the American Forces in Germany, August 25.—Correspondence of the Associated Press.—According to information reaching the American headquarters, the German government has placed orders for many thousands of iron crosses which are to be awarded to returned prisoners when they are released by the allies. Thousands of these prisoners are to pass through the American occupied area on their way to the interior of Germany.

Many of the crosses are to be given to soldiers of the volunteer units which have been serving on the eastern front in recent months.

SUPERVISORS CONVENE. The members of the Lee county board of supervisors assembled this afternoon at the court house for their annual meeting. The board came to order about 3 o'clock and an adjournment was taken until Thursday to allow the supervisors to attend the primaries tomorrow.

Too Much Gold for U. S. Storage Room

By Associated Press Leased Wire. Washington, Sept. 9.—The government has so much "coin of the realm" that it actually bulges out the walls of the vaults containing it. The treasury has asked congress to appropriate \$1,500,000 to make the vaults secure and provide additional ones. The treasury's gold and silver accumulated during the war.

GIRL FORGER IS GIVEN ONE MORE CHANCE BY COURT

Ashton Person Charged with Getting \$105 By Bad Checks.

Minnie Zeise of Ashton, aged 20 years, was paroled by Judge John B. Crabtree late yesterday afternoon for a period of one year upon promise that she would conduct herself as every young lady should. Minnie was taken in custody by Chief Van Bibber upon suspicion of being the person who has been recklessly passing bad checks about town.

At the police station she made a complete confession and told how she had drawn checks and signed the name of her employer. The matter was then referred to State's Attorney Edwards and a charge of obtaining money by false pretense was lodged against her. She was brought into the county court at 4:30 yesterday afternoon for a hearing and placed on probation.

Minnie was employed as a domestic at the E. J. Countryman home during the summer and every Saturday evening received her weekly compensation in the form of a check from Mrs. Countryman. Attractive clothes fascinated her attention, it is said, and she also found that she could draw up checks and it is charged was quite expert in signing the name of her employer.

In all, the young woman is charged with writing checks for \$105 which she cashed at business houses and in the banks of the city before being apprehended. All of the checks were written for \$5 amount with the exception of two, one being for \$5 and the other for \$4. Mr. and Mrs. Countryman were not of a mind to send the girl away, although she left their employ some time ago, but desired that she be given another opportunity and upon her promise to take advantage of the kindness the county judge placed her on parole for a one-year period.

STANDARD OIL IN CITY OUT OF GAS

Just about one year ago people of its vicinity could not run their automobiles one day a week on account of gasless Sundays. Some owners of automobiles have been threatened with the same condition within the last few weeks but it is not on account of any government order but has been traced directly to car shortage and railroad strikes.

The Standard Oil filling station on Third street and Galena avenue ran out of gasoline shortly after noon Sunday and the big underground tanks are still empty. Other gasoline filling stations about town depending on Standard oil are without that product and there is none in town. The storage tanks on East River street are empty and Manager Ross Crawford is using the watchful waiting policy and waiting until a car arrives from Whiting, Ind.

A week ago the same condition existed here and not here alone for the sterling plant was also without gasoline. Shortage of cars and labor conditions are blamed for this shortage of gasoline.

VOTE TOMORROW FOR CANDIDATES CODE CONVENTION

Tomorrow is primary day in Illinois for the nomination of party candidates for the office of delegate to the Constitutional Convention. The polls in all the regular voting places in Dixon and Lee county will be open during the regular hours.

The only candidates who have filed petitions and whose names will appear on the ballots are the republicans, Edward H. Brewster of Dixon and Alvin Warren of DeKalb. This district is entitled to two delegates. It is hoped that a representative vote will be gotten out and that all voters will show a proper interest in tomorrow's primary.

Toledo Player Hit By Baseball; Skull Hurt

By Associated Press Leased Wire. Toledo, O., Sept. 9.—Dennis Murphy, catcher for the Toledo American association baseball club, is in a hospital with a fractured skull, having been taken there yesterday, following an accident which occurred in one of the Toledo-St. Paul games on Sunday when Murphy was hit by a ball pitched by Dan Griner.

Murphy was knocked down, but arose shortly and walked off the field. He was attended by a physician in the club house and it was not discovered until late Monday that his skull was fractured.

RUMANIANS WILL NOT SIGN PEACE WITH AUSTRIANS

Supreme Council Told That Terms Are Not Acceptable.

By Associated Press Leased Wire. Paris, Sept. 9.—Dr. Karl Renner, the Austrian chancellor and head of the Austrian peace delegation, who is to sign the peace treaty tomorrow for his nation, arrived in Paris from Vienna this morning.

By Associated Press Leased Wire. Paris, Sept. 9.—The Rumanian delegation to the peace conference announced today that it would not sign the Austrian peace treaty, the signing of which by Austria and various other powers in interest is set to take place at 10 o'clock tomorrow morning.

Before the Rumanian announcement was made it had been indicated by members of the supreme council that Rumania was expected to take the course she has announced in refusing to sign the treaty, because the council refused to allow her to make reservations in connection with the rights of minorities in territories detached from the former Austrian empire, as provided for in the peace treaty.

It is also considered as improbable that the Jugo Slav delegation will sign the treaty.

Bolsheviks Propose Peace to Lithuanians

By Associated Press Leased Wire. Paris, Sept. 9.—The Russian bolsheviks have proposed peace to the Lithuanians, according to reports from Polish sources.

It was reported September 2, that a force of bolsheviks was surrounded on the Lithuanian front and was offering to negotiate with the Lithuanians. The next day a German dispatch stated that formal proposals had been made by the bolsheviks but no confirmation of this report has as yet been received.

There is considerable conflict in the Russian soviet government on the one hand and the all-Russian forces of Admiral Kolchak on the other as to the locale of the recent fighting in the campaign west of Omsk.

A counter offensive by the Kolchak forces beginning Sept. 1 was reported in Omsk advices received Sept. 8, the bolsheviks being declared to be in retreat and heavy fighting taking place along the Tobol river, about 300 miles west of Omsk.

The recent bolshevik communications have carried no dates of the reported engagements and it is uncertain if they antedate the Omsk advices or relate to subsequent happenings.

Sleeping Woman on Track Hit By Train

By Associated Press Leased Wire. Quincy, Ill., Sept. 9.—Mrs. J. H. Thompson of West Plains, Mo., was instantly killed while walking along the Burlington tracks in her sleep at Shelbina, Mo., near here, at an early hour this morning. She was visiting at the home of her parents Mr. and Mrs. W. H. Dye. During the night she arose, dressed herself and while asleep was struck by the Missouri limited from Chicago, which runs near the Dye home. Her parents said she had been subject to somnambulism for a number of years.

LARGE BARN NEAR WALTON BURNS TODAY

Fire destroyed the large barn on the James Murray farm, two miles southeast of Walton this morning about 11:30 entailing a complete loss of the building and adjoining silo, 25 tons of hay and two horses.

The origin of the blaze is unknown. It was not discovered until it had practically consumed the structure. There was no one on the Murray farm excepting Mrs. Murray and she was unable to do anything to save the barn. The loss is partially covered by insurance.

Descendant of Old Family Buried Today

By Associated Press Leased Wire. Quincy, Ill., Sept. 9.—Mrs. Elizabeth Blair Shumate, aged 87, who was a member of the famous Blairs of Virginia in pre-war days, and who was married by the father of President Wilson at Moscow, Va., 68 years ago, was buried here this afternoon from the home of a granddaughter. Several days ago she suffered a paralytic stroke.

WOLFE ILL; MATCH POSTPONED A WEEK

Dan Wolfe Dixon's wrestler, will be unable to meet Carl Risberg, of Galesburg at the Moose hall this evening for the welter weight wrestlers championship of Illinois. Dan is at home suffering from two boils that are giving him considerable pain and the match has been postponed for one week.

PERSHING TO REVIEW BOY SCOUTS PARADE IN N. Y. LATE TODAY

Rests This Morning From Activities of First Day at Home.

By Associated Press Leased Wire. New York, Sept. 9.—General John J. Pershing escaped a resumption today of the tumultuous welcome that greeted him on his arrival from France yesterday by remaining in his hotel apartment until time to review a small army of 2000 Boy Scouts in Central Park this afternoon. The Scouts were assigned to act as the general's escort in the park where 5000 school children were gathered to sing patriotic songs and hear him speak.

Tonight at 8 o'clock General Pershing will be the guest at a reception tendered him by the Elks.

General Pershing will lead the parade of the first division tomorrow mounted on his favorite sorrel horse, "Kidron." The big animal attracted attention in the parades in which he participated in Paris and London.

The picked regiment of six foot soldiers who aroused the admiration of the French and English were rushed from the Leviathan to Camp Merritt yesterday to prepare for their parade appearance.

General Pershing was presented today by the Lieutenant Jefferson Sigle post of the American legion, with a Virginia thoroughbred horse.

When General Pershing went to the riding academy where the presentation was made the building soon was surrounded by a crowd anxious to see him. Many mothers with babies in their arms were present and appeared anxious to have the general kiss their children. He complied in the case of two or three who were most insistent. When he returned to his hotel he found many more fond mothers anxious to have the distinction conferred upon their infants and he again had to run the gauntlet before reaching his rooms.

Allies Will Demand Germany Eliminates Austrian Sections

By Associated Press Leased Wire. Paris, Sept. 9.—(Havas)—The supreme council of the peace conference will today draft a note to be sent to Germany demanding the suppression of article 61 of the German constitution providing for Austrian representation in the German parliament, according to newspapers here. It is said that the council considers the German answer to the council's note relative to article 61 as insufficient.

Senate Passes Export Finance Bill Today

By Associated Press Leased Wire. Washington, Sept. 9.—After amending it to provide double liability for shareholders in corporations organized under the act, the senate today passed the export finance bill by Senator Edge of New Jersey. It now goes to the house.

The bill is designed to extend American credit abroad and enabling American financial interests to assist in the rehabilitation of Europe.

The double liability provision was inserted over the objection of the federal reserve board. Senator McLean of Connecticut told the senate he doubted if any of the projected corporations could be formed with it.

On motion of Senator Owen of Oklahoma, the provision removing the corporations from operation of the Clayton act was eliminated. Provisions also were inserted forbidding the corporations from engaging in commerce or trade or interfering with competition in sale of commodities.

14,000 Miners Obey Orders to Strike

By Associated Press Leased Wire. Scranton, Pa., Sept. 9.—Fourteen thousand employees of the Delaware, Lackawanna and Western Coal company in its mines within Lackawanna county today obeyed the strike order of their grievance committee.

They went on strike in support of the company's miners at Archbald, who are protesting against the discharge of those who refused to do emergency work at miners' wages. The men have other grievances.

Aviators Fly Low Annoy Worshippers

By Associated Press Leased Wire. Santa Monica, Cal., Sept. 9.—Complaint that aviators disturb divine worship here by flying so low over churches that the whirr of the planes interferes with the preaching and singing, has resulted in the city commissioners issuing a request to airmen, that they travel in high altitude from 11 a. m. to 1 p. m. Sundays.

MARRIAGE LICENSES. The following marriage licenses were issued late yesterday afternoon: John W. Oswald, of Nelson, and Miss Addie M. Klein, of Dixon. Wilder A. Richardson, of Compton, and Miss Lulu C. Schnuckel, of West Brooklyn.

EYES OF WORLD TURNED TO U.S. WILSON STATES

Unsettled Conditions to Exist Until U. S. Acts on Treaty.

By Associated Press Leased Wire. St. Paul, Minn., Sept. 9.—The cost of living, President Wilson told the Minnesota legislature today, is largely due to "a world situation" growing out of the sacrifices and waste of the war.

Back of that, added the president, lay the fact that the world had not yet learned what the peace status would be.

"The world is not going to settle down," said he, "until it learns what part the United States is to play in the peace."

He continued that this was the only nation which would have enough free capital in the near future to rehabilitate the world economically.

Speaks to Legislature. The legislature, which began yesterday an extraordinary session to consider the high cost of living and other subjects, received the president with cheers. He was introduced by Governor J. A. Burnquist, who said Minnesota hoped there would be some arrangement to prevent future wars.

First of all, Mr. Wilson said, it was the nation's duty to set the commerce of the world going by the establishment of peace. After that, he continued, there were domestic adjustments that must be made, mentioning among other things that railway facilities in this country were not equal to the demand.

Having established a world settlement economically, Mr. Wilson declared, it was imperative that there be an arrangement to insure "that nobody monkey with the process" set up.

Labor Everywhere Restless. Turning to the relations of labor and capital, the president said that laboring men everywhere were dissatisfied with their relation to their employers. That was true abroad, he added, in larger measure than in the United States.

Referring to the treaty provision for an international labor organization, Mr. Wilson said here was a way to bring a definite solution to the problems. He asserted that in this solution, the United States was expected by the world to set the standards and lay down the principles.

Capital-Labor Combine. As a basis for the solution, the president suggested that the interests of labor and capital must be recognized as identical and the two ought to be reasonably enough to get together. When it was realized that labor was not a commodity and a real cooperation had been established, production would increase "by leaps and bounds," and that would be one element in reducing the cost of living.

The United States, the president said, had been "provincial" in past years in its economic relations to the world. There must be a change, he argued, if (Continued on Page Five.)

Sen. Spencer Makes Attack on Wilson's Attitude on Treaty

By Associated Press Leased Wire. Washington, Sept. 9.—President Wilson's statement in his St. Louis speech that the treaty controversy demands either acceptance or rejection drew fire in the senate today from Senator Spencer, republican, Missouri, urged adoption of reservations protecting American rights.

Senator Spencer said if forced to choose between acceptance or rejection of the treaty as it is written, he would vote for rejection.

"I have no sympathy with changes," Senator Spencer added, "that would kill the treaty. There are many commendable things in the league covenant that deserve a trial and also in the treaty. But I have cordial sympathy for such reservations as safeguard the essential rights of our country."

The treaty, the senator added, "was peculiarly and unfortunately a one man document."

"The treaty of peace as now written ought never to be ratified by the senate," declared Senator Spencer.

The four reservations reported by the foreign relations committee should be added to it, he asserted, adding the "rights of our country are in real jeopardy without reservations" which he said are necessary in order to insure confidence and understanding at home.

Senator Spencer said he could see no delay or complications resulting from America's taking steps to safeguard her rights.

Spectators in the galleries applauded.

Mexican Soldiers in Sonora Kill Leaders

E. H. BREWSTER IS LEE COUNTY'S CANDIDATE FOR CODE CONVENTION

Prominent Lawyer Worthy of Votes of People of 35th District.

Voters in tomorrow's primary to nominate party candidates for the office of delegate to the Constitutional Convention will have opportunity to put in nomination, E. H. Brewster of Dixon, one thoroughly qualified to serve in this important position. Mr. Brewster is a republican, a former state's attorney of Lee county and one of the best known lawyers in northern Illinois. In every way he measures up to the strict requirements of this extremely important position.

Mr. Brewster has had strong and unanimous endorsement in the counties

comprising the 35th senatorial district. Lee county is fortunate in being able to produce such an acceptable candidate. He represents no particular interest, yet through his years of experience in the law, in business and in farming, he is uniquely fitted to understand and deal in the most intelligent and unbiased manner with the many and various features and problems that will be presented to the convention.

The importance of the Constitutional convention can be readily comprehended. The necessity of electing men of the highest capability cannot be overestimated.

The convention is to draft a constitution which, when approved by the voters, will govern the laws and law-making bodies of this state for many generations to come. In drafting a new constitution we are building for the future, and we must build wisely, sanely, carefully and with due regard for the progressiveness of modern times and for the development of years to come.

Two delegates from this senatorial district are to be nominated and elect-

Fall Plowing Held Up By Dry Weather

Springfield, Ill., Sept. 9.—S. D. Fessenden, field agent for the Bureau Crop Estimates, made today the following statement concerning the agricultural situation in Illinois during the past week:

There were scattered showers during the week but many localities need rain. The temperature has averaged about normal.

From a quarter to a third of the winter wheat is still in the shock. Thrashing has progressed slowly due to a lack of sufficient labor and an apparent scarcity of thrashing outfits.

Thrashing of rye is nearly completed and yields are not running high.

Yields of spring wheat are running very small in most sections and the quality of the grain is poor except in a few northern counties.

Buckwheat is nearing harvest in a fair condition but is in need of rain.

White potatoes will make a small crop this year of only fair quality but a fairly large crop of sweet potatoes of generally excellent quality will be harvested.

Meadows and pastures are needing moisture and general rains must come soon if the fall pasturage is to be good.

Health of live stock is generally good though some cases of hog cholera have been reported recently. Good sized litters of fall pigs are the rule so far.

Only fair sized crops of apples, peaches and pears will be harvested but peaches and pears are of excellent quality.

Fall plowing is decidedly backward due largely to the condition of the soil which is quite generally baked and hard.

PEOPLE'S COLUMN

In the Evening Telegraph of August 19, I noticed a small article in regard to the Democrats have no candidates. The other republican candidate is Alvin Warren of DeKalb county, a man well fitted for this important task.

Heroic French War Dog, Honored by Army, Now An American, Thanks to Y.M.C.A. Man

Loost, Credited With Two Official Citations, Spent Years in No Man's Land on Slopes of Verdun Protecting Outposts from German Raiders and Patrols.

If the airmen were the eyes of the army, this dog was the ears of at least a part of it. For two years he lay every night out in No Man's Land, watching and listening for German patrols and raiding parties.

His name is Loost, and as a real veteran of the war he has two citations to his credit for having saved French troops from surprise attacks by Hun patrols on the outer defenses of Verdun. So acute is Loost's hearing that he could detect sappers trying to tunnel under the French trenches, a gift that enabled him several times to spoil the plans of the German engineers.

After the armistice was signed, Loost came into the hands of the French War Dog Society which encouraged the breeding of such dogs long before the war and later has taken care of those animals which became disabled or too old to be longer fit for active work. It was while he was a "guest" of the society that Loost met his present owner, Ralph H. McKelvey, a New York insurance broker, who was doing welfare work in France for the Y.M.C.A.

McKelvey's work was the distribution of tons of books for the doughboys in all parts of France. A great warehouse in Paris was filled with volumes, pamphlets and reading matter of all sorts, and it was McKelvey's job to keep this mass of literature moving to the points where it was most needed. So well did he do this that the president of the War Dog Society, from admiration of McKelvey's work, and knowing McKelvey's love of dogs, promised him a canine war hero to bring to America and give a home.

Loost does not know a word of English and has to be spoken to in

French, but when talked to in his native tongue he seems to understand anything, the "Y" man says.

On the liner on the way home, at McKelvey's order, Loost climbed a ladder, "Go ahead! Go up, Loost!" he got only a puzzled stare and a whine, but when McKelvey cried, "Allez, Loost! Montez!" Loost at once scrambled up, to the cheers of the voyagers.

On one of the occasions when this dog was honored, the French commander of a company at one of the outer defenses of Verdun officially recommended him for a citation,

and another time Loost was cited by a colonel and paraded before the grateful French troops. In all probability, Loost never will see his native land again. Mr. McKelvey has a large country place in northern New York and there the war hero will go to live, having nothing more difficult or dangerous to do than occasionally to drive home the cows—"vaches," as Loost will know them. In fact, McKelvey foresees the need of a French course for his farm hands if his new dog is going to escape being homesick.

JORDAN MAN AND WIFE DIE SUNDAY

Exactly twelve hours after the sudden death of his wife, John Marschang, of Jordan, passed away at the Freeport hospital. Mr. Marschang had been ill for some time and his wife was boarding and rooming at a private home in Freeport so that she could be near him. Mrs. Marschang had gone down town to make a purchase for her husband and was found in a paralyzed condition on the street by a couple of strangers, who took her to her rooming place. She died a few moments later at 7:30 Saturday night. Mr. Marschang passed away Sunday morning at 7:30 o'clock.

Mr. Marschang was 75 years of age and his wife was ten years younger. Both have been old residents of Whiteside county and have many friends in this community who are shocked to hear of their death.

The remains were brought to Sterling

and were later taken to the late home

in Jordan township. A double funeral

was held this morning, from the home

at 8 o'clock and from the Sacred Heart

church at 9 o'clock. Rev. Father Wolf-

garten celebrated requiem mass. In-

terment was in the Sacred Heart ce-

metery.

FORMER DIXON MAN BURIED AT DEKALB

Funeral services were held yesterday at DeKalb for J. P. Shaver of that city, a former resident of Dixon, who died last Friday after an illness of a year's duration.

Mr. Shaver left Dixon about 20 years ago and for many years was the proprietor of a hack line in DeKalb. He is survived by his wife, a son, Orlo, of DeKalb, and a daughter, Mrs. Edna Parker, of Janesville, Wis. Four brothers also survive: J. C. Shaver, of Dixon; Z. L. Shaver, of Coon Rapids, Ia.; William, of Belmont, Ia.; and Clayton, of Colorado.

Among those from away who attended the funeral were: J. C. Shaver and George Shaver, of Dixon; Mrs. James Shaver and daughter, Mrs. Hitt, of Nebraska.

Twelve Million Fine Pelts Placed on Sale

By Associated Press Leased Wire

St. Louis, Mo., Sept. 9.—More than 12,000,000 pelts, valued at \$15,000,000 will be auctioned at the annual fall sale of the International Fur Exchange here, beginning tomorrow. More than 500 buyers, from all parts of the world, are expected to attend.

Nine thousand Alaskan seal, and 667 blue fox will be sold for the account of the United States, and are expected to bring approximately \$1,000,000. A unique feature will be the sale of 30,000 Russian pony pelts. This is the first time in the exchange's history the latter have been on sale.

The largest lot catalogued is one containing 1,500,000 Russian squirrel. Among the expensive pelts are 8,000 sable, 7,000 Russian sable, and 700 silver fox. The Russian sable alone, it is believed, will bring \$2,000,000, Philip B. Pouke, the auctioneer, said.

Large lots to be sold include: 565,000 muskrat, 230,000 marmot, \$10,000 white hare, 150,000 civet cat, 200,000 Australian opossum, 250,000 American opossum, 190,000 ermine, 110,000 Japanese fox, and 600,000 pounds of rabbit skins. The sale will continue through September 20.

KILLED FOUR BIRDS WITH SINGLE STONE

H. W. Leydig, secretary of the Dixon Casket Mfg. Co., went to Pekin, Ill., in his car accompanied by his family to call on two stockholders of the company, C. Kuecks, of Pekin, and Otto Hilt, of Manito. When he arrived he learned that these two men were at the Spring Lake Reform picnic, where they were having a chicken dinner. Mr. Leydig went to the picnic and helped dispose of the dinner.

Today, Mr. Leydig received a substantial check with a letter stating he had won the prize offered to the car driver who came the farthest for the picnic. He saw two stockholders. He ate a big chicken dinner, he won the cash prize, "Four birds with one stone."

JAPANESE TEA—

The young ladies of St. Paul's Mission band, in dainty Japanese costumes and hair dressed strictly in Japanese fashion, served tea daintily at St. Paul's church Saturday afternoon. The tea tables were in a portion of the church dining room which was separated prettily from the remaining space by curtains of crepe paper streamers in various colors. Chrysanthemums were used to assist in the decorative effect. The affair was quite a success, both financially and socially.

DORCAS SOCIETY TO MEET—

A regular meeting of the Dorcas society of the Congregational church will be held all day Thursday at the parsonage. All the ladies and members of the society are to come and should be prepared for work.

EVERETT HEARS OF THE ACCIDENT AND ROBBERY CHAPTER LXVIII

Once in the house, Everett's manner changed. He was the same cold, calculating, fault-finding husband to whom I had not yet become accustomed. These sudden changes in him bewildered and yet intrigued me.

"Now tell me all that has happened since I left."

"Oh, Everett, it has been terrible!"

"Terrible? Well, suppose you begin at the very beginning and tell me what has been so terrible." He evidently had not seen the evening papers which contained an account of the robbery.

"Oh, the accident, the burglar and everything!"

"The burglar?"

"Oh, it was terrible! I really thought I would die of fright!" Then I went on and told him as plainly as I could what had happened. Mrs. Gray had had a delicious supper left for us on the dining room table, and while he ate I talked.

He made no comment, scarcely spoke until I mentioned the railroad ticket in my purse.

"How did you come to have a ticket to New York in your bag?"

"Why—I thought after telling me I might go, it was unfair of you to say I couldn't, so I hurried down to the station, bought a ticket, hoping I would see you and that you would let me go."

I added the last meekly enough because of the frown on his face.

"You mean to tell me that after I called you up and told you you could not go, you deliberately went down to the station and bought a ticket, intending to force yourself upon me?"

"What an awful way to put it!" I exclaimed. "I was so disappointed. I thought perhaps if I talked with you it might change your mind. I knew the time was short, so I bought my ticket."

"And so by disobeying me you assist

ed a burglar."

"That isn't fair!" I returned with some show of spirit. "Please be fair, Everett. One would think I knew the burglar to hear you talk. It was terrible—even Mrs. Gray said I might have been shot instead of James as it was my room into which he climbed."

"James shot?"

"Yes—then I told him the story. He never once interrupted me, but when I had finished he said again—or rather mumbled 'Thank God!' but whether he meant that I wasn't shot, or that James wasn't killed, he didn't say."

"I feel terribly about the sapphires, Everett," I said.

"Never mind the sapphires—you are safe," and before I knew what he intended, he had once more swept me into his arms, and was covering my face with kisses.

But after a moment he put me away and made me go over each moment of time, every slightest incident. When I told him that Mr. Kemp was going to call and inquire after me—whether I had suffered any bad effects from the accident or not, he returned:

"You will not receive Mr. Kemp when he comes. Mrs. Gray can convey your thanks for anything he may have done for you. I will also see him and thank him."

"But why should I not receive him?"

"Because I do not wish you to. Isn't that sufficient?"

"No, Everett, it is not!" I was terribly frightened at my temerity; more I think than I had been at the sight of the burglar. But I went on: "Would it have been enough for your first wife?"

Everett was absolutely ghastly when I gained courage to look at him.

"It will be enough for you. Hereafter I expect to be obeyed in whatever I command. Now that I look at you, why have you disregarded my wishes about the way you wear your hair?"

"Simply because I think I have the right to do my hair as I wish. Would you like me to tell you how to have your hair cut?"

"The cases are entirely different."

"I see no difference."

"I will go up and see how James is. You go to bed at once."

Instead of doing as he told me, I took a book and tried to read. But I never knew what I read—my mind was filled with the idea that she had loved her so devotedly, he would also love me in the same way if I were like her and acted as she did.

Tomorrow—Kemp calls to inquire after Sandra.

The Brunswick

Why the Brunswick Method of Reproduction Insures a Superior Phonograph

Reason No. 1

The Brunswick Method of Reproduction includes the Ultona, a new conception in playing. The Ultona consists of an arrangement of the several necessary reproducing diaphragms upon one tone arm—an all-in-one arrangement, with no attachments—nothing to take off or put on.

At a turn of the hand, the Ultona presents to any type of record the proper diaphragm and needle, the exact weight. Thus the requirements of each type of record are met. The Ultona demands no sacrifice in tone, as attachments often do.

Reason No. 2

Equal in importance to reproduction is tone amplification. The Brunswick Method of Reproduction also includes a new idea in acoustics—The Brunswick Amplifier.

Old-time ideas were at variance. Some makers still cling to metal construction. Others use a combination of wood and metal—a wooden horn and a metal casting as the "throat."

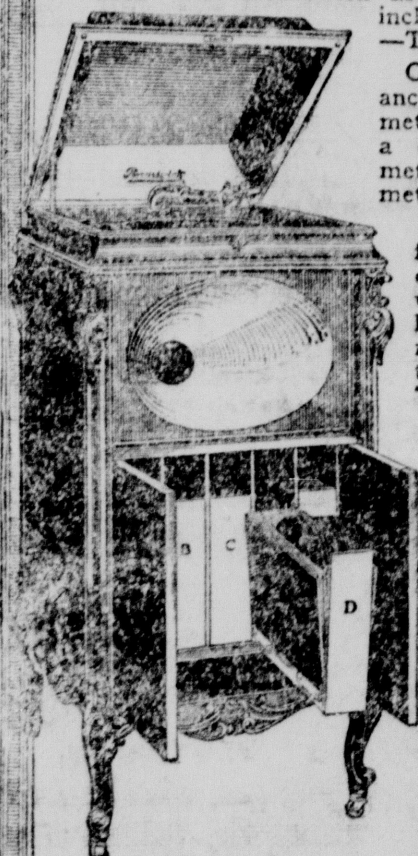

But the Brunswick Amplifier is oval in shape, and built entirely of wood, like a fine violin. It is molded of rare holly-wood. The sound waves receive uniform amplification to reach their fullness, hence the Brunswick tone is richer and more natural. Strident, metallic notes are absent.

We Invite Comparison

Make comparisons. Let your ear decide. Try to find an equal to Brunswick tone.

You're bound to end such a search at a Brunswick shop, where every opportunity will be given you to decide for yourself.

Hear this remarkable instrument before you decide.

BUILD HOUSES IN DIXON.

The recently announced movement
to have a number of dwelling houses
erected in Dixon should be followed up
and fostered by progressive Dixonites
and should have the support of the
community, because it is only by a
movement of this nature that the city
can grow and develop. At present
there is a dire need of homes in Dixon.
Many families are prevented from com-
ing here to live because they have no
place to live in. Dixon cannot grow
until she has more homes. Newcomers
do not erect houses. They prefer to
rent until they are sure they are set-
tled here permanently. They will not
come here at all until we have modern
attractive homes they can rent at rea-
sonable prices.

Dixon people who are renting and
who are in a position to build homes
of their own should do so. The man
who owns his own home makes the
best citizen. The government is advis-
ing Americans to build and own their
own homes.

Own Your Home and Build It Now.

VOTE TOMORROW.

Go to your precinct polling place to-
morrow and cast your ballot for a can-
didate for the Constitutional Con-
vention. There are two men to be elected.
On the republican ticket appear the
names of Edward H. Brewster of Lee
county and Alvin Warren of DeKalb
county. Both candidates are men of
the highest calibre and will be a credit
to this district if sent to the conven-
tion. The district, which comprises
the counties of DeKalb, Lee and White-
side, is entitled to send two delegates.
Neither the democrats nor the social-
ists have candidates, although they will
have the privilege of writing names in

Congress Asked to

Louisville, Ky., Sept. 8.—Representa-
tive Charles F. Ogden is trying to ef-
fect, by special act of congress, the re-
tirement of Captain Leonard F. Mat-
lack, the Louisville man who distin-
guished himself in the recent American
expedition into Mexico according to
City Attorney Joseph S. Lawton, who
has just returned from the national capitol.

Capt. Matlack's temporary commis-
sion expires soon. Due to an injury re-
ceived in line of duty, he will be unable
to re-enlist to serve thirty years, the
retirement period of an enlisted man,
although he had nearly completed this
when he was given a temporary com-

Existing laws provide for retirement
for disabled officers of the regular es-

commissions from civilian life during
the war, but do not protect the enlisted
men of the regular army who were
given temporary commissions.

KANSAS MURDER
FARM MYSTERY
NEAR SOLUTIONArrest of Rufus King
is Expected to
Clear It Up.

By Associated Press Leased Wire
Topeka, Kan., Sept. 9.—Not since the
disclosures surrounding the finding of
the remains of eight victims, buried
near the notorious Bender road house
in Labette county, way back in 1873,
has Kansas experienced a "murder
farm" mystery such as recently has
been brought to light in the little town
of Maple Hill, 18 miles west of this
city.

This month three human skeletons
have been found at Maple Hill, on
premises formerly occupied by Rufus
King, who for 12 years ran a livery
business in that village. In each case
a coroner's jury found that the victim
has been murdered and King now is
confined in the Shawnee county jail,
confronted with three charges of first
degree murder. He was brought to the
jail here from Alma, Kan., for fear of
an attempt at lynching, officers declared.

The three men, whose skeletons have
been identified, disappeared years ago.
Search for others continues. King de-
nies any knowledge of murders of men
"being buried with their boots on."
about his place. In each of the three
cases, however, at the time the men
disappeared, King offered plausible ex-
planation. The fact that he possessed
property of the men in each case, after
the disappearance, he explained by de-
claring he bought it. He even went to
relatives of two of the men and told
them of the departure "on the night
train" of the men and confined alleged
reasons why they "had to leave town
in a hurry."

The three skeletons have been iden-
tified as those of: Reuben Gutshall, 22,
son of a farmer; disappeared Dec. 8,
1913.

John Woody, 20, disappeared in 1909,
after winning \$140 in a poker game in
which King was a heavy loser and after
spending the night with King at the
barn.

An itinerant jewelry peddler, name
unknown. Disappeared in 1908. Skele-
ton found August 14, 1919, in a shallow
grave in barn lot; skull crushed.
Identification by trinkets worn by ped-
dler.

As to a quantity of cheap jewelry
found in King's home recently by offi-
cers the prisoner explains that the ped-
dler left it with him "but never came
back after it."

After Gutshall "left town" King was
in possession of the young man's team
of horses and wagon. He declared that
he bought it of Gutshall.

Quit Talk and Go to
Work is New Slogan
Business Interests

By Associated Press Leased Wire
Chicago, Ill. Sept. 9.—"Quit talking
and get down to work." This was the
keynote sounded by speakers today be-
fore the "Our Country First" confer-
ence, which has drawn representatives
of business, financial and agricultural
organizations from all sections of the
country to Chicago to discuss present
day conditions in industry and to for-
mulate plans for a return to normal
ways.

"Organize a talk strike and boycott
every man who does not get on the
job," advised L. C. Boyle, of Washing-
ton, representing lumber associations.
"If everybody, from hod carrier to the
president would stop talking and go to
work our country's needs would be bet-
ter served. There is need for shoes,
coal, sugar and many other things and
talk will not get them."

In suggesting remedies for present
unrest Mr. Boyle advocated more atten-
tion to the teaching of the elemental
principles of our own institutions in
schools and less attention to the "soviet
and other radical departures."

"This nation is the pathfinder of free-
dom," he said, "and we ought either
to teach the foreigner who comes to our
land Americanism or exclude him. Most
of our anarchism is foreign born and
we should not permit those vicious
characters to tear down our own insti-
tutions."

No Man's Land Now
Hidden By Poppies

By Associated Press Leased Wire
Dover, Eng., Aug. 24.—(By Mail.)—
Former British officers returning from
France and Belgium where they have
been going over the ground where a
year ago they were still fighting, ex-
press astonishment at the manner in
which nature is blotting out the scars
of the war.

"No Man's Land everywhere is cov-
ered with a mass of scarlet poppies,"
said one officer, "and the disappearance
of the rusty barbed wire makes one al-
most forget the place was ever the most
desolate prospect a man ever saw. But
the trenches are still there and so is
much of the timber, both startling re-
minders of the days when we did not
know just what was going to happen
next."

Place Quarantine to
Keep Out Corn Borer

By Associated Press Leased Wire
Springfield, Sept. 9.—Quarantine
against the shipment into Illinois of
seed sweet corn may be necessary to
protect the Illinois crop against the
European corn borer, according to
Chas. Adkins, state director of agricul-
ture, who returned recently from a con-
ference of agriculture commissioners of
various states in Boston to discuss agri-
cultural questions.

Both Massachusetts and New York,
Mr. Adkins said, are suffering from the
ravages which already have made ser-
ious inroads in some sections of the
east.

LEE COUNTY WAR
HISTORY WILL BE
READY SHORTLYMore Solicitors Asked
for Choice Territory
in This Vicinity.

Lee county's official war history is in
the making. A great mass of informa-
tion has been compiled and is ready for
the printers and work will be started
as soon as subscriptions to this volume
reach 1,000, the figure set as the mini-
mum circulation to pay the expense
of printing and selling it.

The book is to be published under
the direction of the Lee county com-
mittee of the State Council of Defense.
It will not be printed for profit, and no
advertisements will be allowed. Those
who are putting in a large amount of
time preparing the material for the
printer will draw only wages.

Solicitors have been named in many
townships, but there are some town-
ships as yet unsolicited. Solicitors
are working hard and find many who
are indifferent as to subscribing for a
copy of this book. Only enough copies
to supply orders taken will be printed
and there will be no extra copies to
purchase after the book is out. Pur-
chasers are guaranteed a complete his-
tory of Lee county in the war, printed
on a good grade of paper, substantially
bound and containing many pictures of
boys in service.

C. H. Stackpole of Dixon has the
work of securing solicitors in charge
and still has some territory to assign.
When the subscriptions reach 1,000 cop-
ies the printer will be given charge of
getting out the book.

Mennonites Moving
to South America

By Associated Press Leased Wire
Swift Current, Sask., Sept. 9.—Men-
nonite colonists who came to Saskatch-
ewan and Alberta from the American
Northwest during the last year of the
war, and who have been storm centers
because of their pacifist tendencies, are
preparing to immigrate to the Argentine.
Already, applications for passports
have been received, according to dis-
patches from Ottawa.

The Mennonite problem has given the
federal and provincial officials great
concern. They sold valuable holdings in
North Dakota and South Dakota when
the conscription act was passed and
took up homesteads in Canada, where
conscientious objectors are immune.

Many small towns have sprung up
since the Mennonites came to Saskatch-
ewan but returned soldiers have de-
manded that the government confiscate
their lands and turn them over to the
men who served in Flanders and
France. Most of the high class land in
this region is owned by the Mennonites.
It is understood that agents of the
colonists went to the Argentine and
were assured that the Mennonites
would be permitted to colonize and
practice their religious beliefs without
restrictions.

Treaty As Present
Will Un-Americanize
the United States

By Associated Press Leased Wire
Salem, N. Y., Sept. 9.—If the peace
treaty, with its accompanying league of
nations, is ratified in its present form it
will "do more to un-Americanize the
people of the United States than any
other force" United States Senator
James W. Wadsworth Jr., declared here
today. His speech was one of those
planned by several senators in an at-
tempt to offset President Wilson's
"swing around the circle."

Senator Wadsworth referred to Presi-
dent Washington's admonition to the
American people to beware of entangl-
ing alliances.

The New York senator declared that
official Washington already has had a
taste of the possible effect of ratifica-
tion.

"Some of the adopted sons of Ameri-
ca," he said, "act as if the treaty were
now actually in force and groups of
them have appeared before the foreign
relations committee of the senate. Did
they come before the senate? United
States citizens? No! They came simply
as sympathizers of their respective
mother countries."

It is such events as the foregoing, Mr.
Wadsworth said, that would keep the
United States constantly involved in
European troubles.

Strike Proponents
in England Gaining

By Associated Press Leased Wire
Glasgow, Sept. 9.—The proponents of
direct action for the enforcement of la-
bor's demands won a victory on the
first vote relating to the subject which
was taken by the trades union congress
here at today's session. The parliament-
ary committee's report was referred
back to it because it did not express
an opinion on direct action.

The vote was 2,586,000 for the motion
and 1,870,000 against.

The motion to refer the report back
to the committee was made by Robert
Smillie, the miners' leader.

G. H. Stuart Bunning, secretary of
the postmen's federation, who is presid-
ing over the congress, declared that the
vote on the motion did not preclude the
bringing up later of a definite resolu-
tion on the subject.

The vote is regarded as tantamount
to a vote of censure of the committee.

Senate Committee is
Making Border Probe

By Associated Press Leased Wire
Washington, Sept. 8.—A senate for-
eign relations sub-committee was ready
today to start an investigation of the
Mexican situation, which it is expected
will cover several months. Many wit-
nesses will be called and hearings will
be held in Washington, in New York
and on the Mexican border. The sub-
committee of which Senator Fall, re-
publican, New Mexico, is chairman, has
given notice that it would go into the
matter thoroughly.

The Rev. Dr. Inman, of New York,
an officer of the league of free nations,
was summoned as the first witness.

MINE WORKERS' HEAD URGES NEGOTIATION OF NEW WAGE SCALE

Washington Agreement is Not Satisfactory to Soft Coal Miners.

By Associated Press Leased Wire
Cleveland, O., Sept. 9.—Acting President John L. Lewis, in his report to the convention of the United Mine Workers of America discussed the greatly increased cost of living and the improbability of any sweeping reduction through "belated" federal action as a preface to his recommendation for a cancellation of the Washington wage agreement in the bituminous field not later than November 1, and the negotiation of a new wage scale, to be enforced by a general miners strike throughout the entire jurisdiction of the United Mine Workers of America.

The basis of the proposed agreement should be that outlined by the national policy meeting held at Indianapolis in March, calling for the six-hour day and five-day week and "substantial" wage increases, said Mr. Lewis.

In other parts of his report he discussed difficulties with the United States railroad administration, resulting from the efforts of Directors General McAdoo and Hines to secure coal for railroad use below the rate fixed by the United States fuel administration, expressed fear that the success of such efforts would tend to force down miners wages; strongly condemned policies and principles for the I. W. W. and similar organizations and declared against any compromise with elements seeking to spread such doctrines in the United Mine Workers organization.

Opening with a reference to the war accomplishments of the miners, who he said, had patriotically met every demand for increased production for war industries and furnished 80,000 men to the American armies, President Lewis passed to the war time negotiations with the United States fuel administration and their efforts to secure modification of the Washington wage award, which had quickly proved inadequate to meet actual increases in the cost of living. These efforts had been successful only in the anthracite field, where increases of from 25 to 40 per cent had been granted.

Production in 1919 had fallen off markedly, he said, the output during the first seven months having been ninety one million tons less than in the same months of 1918.

The "astounding increase" in the cost of the necessities of life, felt by the miners with particular severity owing to their life in isolated communities far from centers of distribution necessitated immediate action to enable mine workers to meet it, he said.

Wireless Telephone Across Ocean Works

By Associated Press Leased Wire
Paris, Sept. 9.—(French Wireless Service)—Reports received by the radio agency from Christiania announce that the government wireless station at Bergen, Norway, has been called up twice recently by a voice from a wireless station on the American coast. The Bergen station which is not fitted with a wireless telephone transmitter, sent wireless telegraphic messages in reply. The voice heard is said to have been perfectly clear.

BELGIAN CHURCH DIGNITARY WILL ARRIVE TONIGHT

Cardinal Mercier Will Extend Thanks for Help in War.

By Associated Press Leased Wire
New York, Sept. 9.—Cardinal Mercier, primate of Belgium, will reach New York late today on board the naval transport Northern Pacific to thank America for the aid it sent to his country during the war. The cardinal will be met down the bay by a committee headed by Archbishop Patrick J. Hayes. There will also be a committee from Baltimore, representing Cardinal Gibbons. This will include Mayor W. F. Broening, the Rev. Father Stickney and C. T. Williams.

Cardinal Mercier will spend the night at the residence of Archbishop Hayes and will leave tomorrow noon for Baltimore to spend a week with Cardinal Gibbons. Two private cars have been reserved for the party on the train which will reach Baltimore at 4:45 o'clock.

Cardinal Mercier will make his first public address in Baltimore armory on Tuesday, Sept. 16. Tomorrow he and Archbishop Hayes will review the first division parade from a stand before the archiepiscopal residence. New York's reception to the cardinal is set for Sept. 17.

Witness in Mexican Probe Refuses Light on Propaganda Charge

By Associated Press Leased Wire
Washington, Sept. 9.—The subcommittee of the senate foreign relations committee investigating the relations between this country and Mexico, and the Mexican situation generally, arranged a continuation of its sessions today with Dr. Samuel G. Inman, a witness yesterday, on the stand. Dr. Inman failed yesterday to confirm or give details of charges he made that there were organized efforts to force intervention in Mexico and asked to be allowed to testify again today.

Today, however, he declined to go into his statement that there was an organized campaign to force intervention in Mexico. Chairman Fall intimated the committee might take steps to compel Inman to go into the subject. Inman complained that attempts had been made to intimidate him and declared the association for protection of American rights in Mexico had branded him as a Carranza propagandist.

"Who's putting up the money for the anti-intervention campaign you're carrying on?" demanded Senator Fall.

Old Fund Is Used.
Inman said it was based on an old fund of \$400, left over from a movement begun three years ago, turned over to the league of free nations and supplemented.

A much discussed letter sent by Inman to members of the Presbyterian board of missions, cross examination developed, represented only his own views and was not reflective of any organization's idea or plan.

Further cross examination directed against Inman's favorable picture of Mexico brought admissions that Carranza always travels with a military escort; that Inman knew of bandit raids; of fraternization between bandits and government troops and of railroads unable to operate because of bandit attacks. Inman's reply was that he never contended conditions were all they should be.

Inman recounted that Carranza had told him the constitutional restrictions on religious workers were not being applied. The effect of cross examination was to indicate senators thought such concessions were evidence of an unstable government.

Inman formerly was a neighbor of Carranza's in Mexico.

EYES OF WORLD TURNED TO U. S., WILSON STATES

(Continued from Page One)

The United States were to rehabilitate the world. And it was necessary to accomplish that rehabilitation, he added, because "if you are going to carry your trade to the ends of the world."

That was why, he continued, the cost of living was a world problem and was wrapped up in the peace treaty. It was "just downright ignorance" of world affairs, he declared, that prevented some men from seeing that point. There was applause when he remarked that he did not think either of the senators from Minnesota was afflicted with that state of mind.

U. S. Role is Gigantic.
"Any man with open eyes" could see the inevitable role the United States must play in world affairs, said the president, and must realize that it was a case of either "welcoming or surrendering" to the facts.

Mr. Wilson said he had seen conditions on the other side of the water and knew first hand what confidence the world reposed in America. He said he had been glad that the problem was a world one and not one of domestic politics because he would be "ashamed" of himself if he made such a subject a partisan one. He added, however, that if he were a "scheming politician" and anyone wanted to present him with this issue as a platform, he would be glad to accept it.

The president concluded his address at 10:47 a. m.

Wilson's Address.
The president said:
"Until the industrial world is put on its feet you cannot finally handle the question of the cost of living, because the cost of living depends upon the things we are always talking about, but do not know how to manage, the law of supply and demand."

"We have got to see that our own production and our own methods of finance and our own commerce are quickened in every way possible, and then we, sitting in legislature like this and in the congress of the United States, have to see to it, if you will permit a vulgar expression, that no one monkey with the machinery."

"We might as well sit up straight and look facts in the face, gentlemen. The laboring men of the world are not satisfied with the relations with their employers. I do not mean to say that dissatisfaction is universal dissatisfaction. I am now speaking of the general relations between capital and labor. Everywhere there is dissatisfaction, much more on the other side of the water than on this side."

"One point I wish to make is that the world is looking to America to set the standards with regard to the conditions of labor or the relations between capital and labor, and it is looking to us because we have been more progressive in those matters. We have got to have a constructive program with regard to labor, and a method by which we will relieve the strain of what you can call the cost of living."

"I can't presume that I know how it should be done. I know the principle upon which it should be done. The principle is that the interest of capital and the interest of labor are not different, but are the same."

"Why is it that labor organizations seriously limit the amount of work they have in hand to do? It is because they are driving hard bargains. They don't feel that they are your partners. And so long as labor and capital are antagonistic, production is going to be at its minimum. Just so soon as they are sympathetic and co-operative, it is going to abound, and that will be one of the means of bringing down the cost of living."

MET BY GOVERNOR

By Associated Press Leased Wire
St. Paul, Minn., Sept. 9.—President Wilson's special train arrived at the St. Paul union station at 9 o'clock. The president was officially welcomed to Minnesota by Governor J. A. A. Burnquist and to the Twin Cities by Mayors L. C. Hodgson of St. Paul and J. E. Myers of Minneapolis.

Edward Gonnemann went to Ashton today with furniture.

Foch Having First Vacation in Years

Paris, Aug. 23.—(Correspondence of the Associated Press).—Marshal Foch is enjoying the first holiday he has had in five years. On his estate at Morlaix, near Brest, the Generalissimo of the allied armies is living the simple life, dressed in loose tweeds and wearing a cap, only retaining his leather leggings as a reminder of his uniform.

The Marshal is a great lover of hunting and partridges are thick in the woods of Brittany. But the marshal disconsolately watches them flutter about with impunity. It will not be open season for hunting in France until September 15. It was open season for the ending for five years and the Commander-in-Chief of the Allied armies never missed a day. Some newspapers are asking that an exception be made in favor of Foch, one of them adding naively that "as he has rendered slight service to his country, in riding it of the Germans he might be allowed to deprive its woods of a few partridges."

When it became known that Foch was going to Morlaix, the Mayor and City Councillors at once made elaborate plans for the reception. They assembled at the house of the Mayor and commenced marching down the station when someone remarked that the hour at which the train was due had passed. "It matters not," said the Mayor, "that Brest train is never on time."

They arrived at the station, however, to find that the train actually had come and gone for twenty-five minutes. For once it had been on schedule time. General Foch was aboard and he never brooks delay. And now Minister of Railways Clavelle has lost a few votes in Morlaix for doing his work too well.

Jap Cable Promoter Coming to America

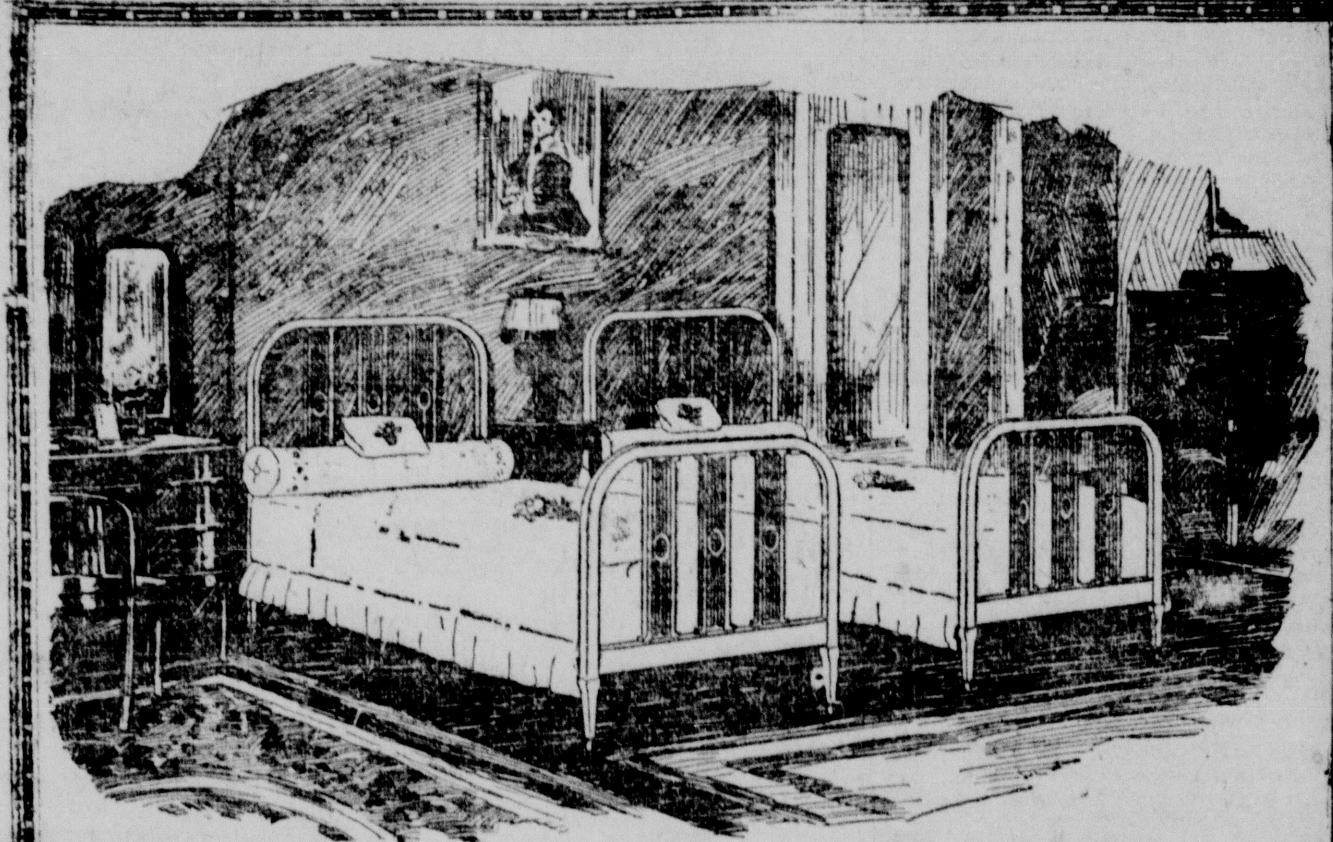

By Associated Press Leased Wire
Tokio, July 28.—(By mail.)—Kakichi Uchida, a leading advocate of the proposed new cable between Japan and the United States, will leave for America

and England next month. In the United States he says he will seek permission of the American government for the landing of the cable and will also discuss the proposition with American Telegraph companies.

"The cable itself," said Mr. Uchida, "will probably be made in England where I shall inspect the cable factory."

ies. Personally I feel confident that the proposition will go through. Present cable facilities are so inadequate that business is greatly delayed. Business houses feel the need of better facilities for the handling of steadily increasing trade communications."

The "Florentine" No. 1813

Made of Simmons Seamless Rectangular Tubing throughout. Artistic center effects—decorations in velvet. Easy running casters. Simmons' Patented Pressed Steel Noiseless Corner Locks. Your choice of Double Width and Twin Pairs. Enameled in Ivory, the Decorative Colors, and Mahogany, Oak and Circassian Walnut effects.

Your Choice of a Dozen Charming Designs in Metal Beds

LOOKING at these beautiful new designs in her accustomed store, a woman might wonder why no one has ever thought before to follow the accepted design principals in metal beds.

The trouble in the past has been due to the limitations imposed by the oldstyle tubing. It cannot be worked into the shapes. It is apt to be rough—does not take the enamel smoothly.

For years Simmons Company has been working on this problem of bettering metal bed designs.

To accomplish what it was after—such charming models as the "Florentine" design illustrated above in Twin pair—it had to invent a tubing that is truly seamless.

The result is a bed that is square and trim—free from joint, seam

and roughness. Beautifully smooth, so that the enamel lies tight and evenly all over—does not scratch, check or chip, just such a bed as you have long wanted to possess.

Come in and see these fine new Simmons designs in Beds Built for Sleep. Quiet beds, with the Simmons Pressed Steel Corner Locks—free from squeak or rattle.

Your choice of many different patterns—and of Twin Pairs and Double Width in each pattern. Enameled in the accepted Decorative Colors, and in Mahogany, Oak and Circassian Walnut.

Prices of Simmons Beds are little if any higher than those of ordinary Beds. You'll be glad to select from this assortment

2000 DELEGATES AT ANNUAL MEET OF MINE WORKERS

International Convention Opens Today— Busy Session.

By Associated Press Leased Wire
Cleveland, O., Sept. 9.—With some 2,000 delegates from the colliers of the United States and Canada gathered in the armory of the Cleveland Grays, the international convention of the United Mine Workers of America, the twenty-fifth consecutive gathering of that organization was called to order at 10 o'clock this morning.

Events have conspired to make it probably the most important in the history of the United Mine Workers, since, quite apart from the possibilities of trouble contained in its almost certain demands for higher wages and shorter hours, the miners of Great Britain are looking to it for support and co-operation in the questions of the six-hour day and thirty-hour week and of the nationalization of coal mines. Both articles of the British miners' program figure upon that of the Cleveland convention. Favorable action, which is anticipated, is expected to react sympathetically upon the struggle across the Atlantic.

The convention was called to order by H. W. Risse, on behalf of the Cleveland federation of labor and short speeches of welcome were delivered by Mayor Harry L. Davis of Cleveland, John M. Owens, secretary of the Cleveland federation of labor, and Thomas J. Donnelly of Toledo, representing the Ohio federation. Of greater significance upon the opening program, however, in view of the desire to secure the support of organized labor every where for the Plumb plan for the nationalization of the railways, was the presence upon it of Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers; Timothy J. Shea, acting president of the Brotherhood of Locomotive Firemen and Engineers; W. G. Lee, president of the Brotherhood of Railway Trainmen and L. E. Sheppard, president of the Order of Railway Conductors, who at a late hour had been added to those to extend a Cleveland welcome to the convention.

Acting President Responds
The response by Acting President John L. Lewis, of the United Mine Workers of America, in the chair of the convention owing to the illness of President Frank K. Hayes, will inaugurate the deliberations of the convention, which is expected to last from two to three weeks.

Today's sessions will be devoted almost entirely to the opening ceremonies, the work of organization and the presentation of the reports of acting President Lewis and of Secretary-Treasurer William Green, which are expected to lay the foundations for the work of the delegates in regard to wages and hours of labor, nationalization of mines, etc.

No decisions on these subjects are expected until later in the week, since the proposed changes in wage scales must first be submitted to the scale committee, comprising the 27 district presidents of the miners' organization, and co-ordinate by it and other resolutions passed upon by the committee on resolutions, which can scarcely complete its labors before Thursday.

Among the resolutions which will cause most discussion are several calling for immediate ratification of the treaty of peace, together with one opposing participation in the league of nations. Other resolutions submitted for consideration abundant material for discussion of practically all pending political questions connected with the war and readjustment to peace conditions.

Cleveland, O., Sept. 9.—Approximately 2,000 delegates from this country and Canada were here for the opening today of the biennial international convention of the United Mine Workers of America, the largest of America's trade unions. The convention which is expected to remain in session for two weeks or more, will be one of the most important in the history of the organization.

The principal matters to be decided are the demands to be made on the operators affecting wages, hours and conditions of labor. For the past two years miners have been working under a contract made in Washington in November 1917, which was to last until March 31, 1920, or "until the expiration of the war."

The miners will consider the war ended when the senate ratifies the peace treaty.

According to William Green, international secretary-treasurer of the organization, the wage and hour demands, although subject to change, are substantially:

A six hour day instead of the eight-hour day; a five day week instead of six and an increase in wages of from 25 to 40 per cent.

It is contended that the miner has to donate the time required to enter the mine (often a considerable distance) just as male drivers in the mine have to put on their animals after a day's work, on their own time; the motormen to care for his motors, etc. "We are forced to demand shorter hours and a shorter week because of the unemployment at the mines," Mr. Green said.

Miners now are paid a certain sum for every ton of coal mined. Operators have claimed miners can make \$15 a day. Union officials assert, however, the average—counting time of lay-off—

will not run more than \$6 a day. Other help are paid by the day generally, the wage running from \$4.75 to \$5 a day.

A joint scale conference between representatives of miners and operators of the central competitive field, including Ohio, Illinois, Indiana and Western Pennsylvania, will be held immediately following the miners' convention, to consider the new wage scale. Inasmuch as the district is the most important in the country, its rate usually governs the country, with modifications due to local conditions.

Another matter of importance to be brought before the convention will be the nationalization of the mines. However, this is merely a question of general policy, according to Secretary

Green, and is not a demand. William Roy, president of District No. 5, United Mine Workers of Ohio, said an effort will be made to move the international headquarters of the union from Indianapolis to Cleveland.

The convention was presided over by John L. Lewis, of Illinois, international vice president, in the absence of President Frank Hayes, who is ill.

OLD BROWNS HURL DEFY TO NEW TEAM

A challenge has been issued by the Old Browns to the present Brown team for a game next Sunday for the entire gate receipts and any size of a purse that may be decided upon. The Old Browns won Sunday from Erie and the New Browns played Ohio and won.

The Old Browns in issuing the challenge intend that both teams shall play the same lineup as on Sunday. Their lineup was as follows:

Lenox, c; Ackert, p; Curran, 2b; Hogan, ss; Duffy, 3b; Schrock, lf; Devine, cf; Allen, rf.

As yet no answer has been given by the management of the New Browns, but arrangements are expected to be made within a day or two. This game, if played, should draw a big crowd and furnish much wholesome amusement to Dixon fans.

AMUSEMENTS

"THE REVELATIONS OF A WIFE."

A new mystery play, that is bound to meet with public favor opens its engagement of one night at the Dixon opera house Thursday, Sept. 11. The plot of the play is based on the vital subject of "Marriage and Divorce," a very important and much discussed. It is called a play of mystery, and fully carries out the author's idea, for one is greatly puzzled until the final drop of the curtain. In order to have a play meet with public fancy, it must contain tears and comedy. This "The Revelations of a Wife" has in abundance. Mystery plays like "The Unknown Purple," "The Woman in Room Thirteen," "Three Faces East," "The Invisible Foe," are now having a very successful run at Broadway, New York houses, and this new play appears like another one ready to follow the above successes. A case of unusual excellence and a production far above the average theatrical event, and the already demand for reservations looks like a capacity house.

ST. LOUIS MILK UP.

Oriental Writer in Favor of Japanese Buying Philippines

Tokio, Aug. 9.—(Correspondence of The Associated Press.)—The suggestion that Japan purchase the Philippine islands from the United States and the Dutch East Indies from Holland as a means of solving the problem of Japan's ever growing population is made by a writer in the Herald of Asia, a conservative Japanese weekly journal. The writer contends Japan is bound to expand territorially as she is expanding in population. Pointing out that the population has more than doubled in the last fifty years, being over 57,000,000, he estimates that at the same rate of increase the population will in another fifty years have reached 114,000,000.

It is not too much to hope, he argues, that "some day justice and destiny will decide that all the islands on this side of the Pacific, north of the equator, will come under the jurisdiction of Japan." He asks the question whether America intends to keep out Japanese emigrants and still hold the Philippines permanently. If not, why should she not some day sell them to Japan? He adds: "Having closed her own doors to the Japanese, this would be a gracious act on her part and one that would be but naturally expected from a country boasting of so much philanthropy and Christian altruism."

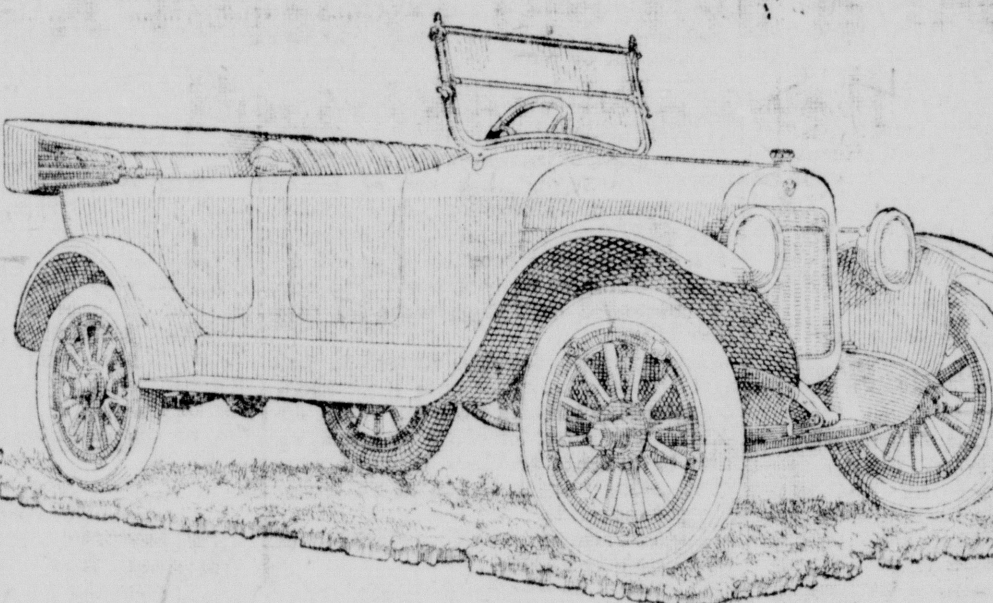

As for the Dutch East Indies the article contends the inhabitants are more akin to the Japanese than to Holland and that Japan could administer the islands with greater benefits to the whole to the people and to herself than could Holland which, moreover, is a small country untroubled with surplus population.

Union By Hungarians and Rumanians, Plan

By Associated Press Leased Wire
Paris, Sept. 9.—(Havas.)—Dr. Steph. Friederich, premier of Hungary, is reported in a Vienna dispatch printed in newspapers here today to have sent a Hungarian delegation to Bucharest. The report states that besides being empowered to negotiate a separate peace with Rumania, the delegation may discuss the eventual union of Hungary and Rumania.

A Feast to the Eye is the Post-War Maxwell

A NOTED artist, whose income is sufficient to provide him with a Rolls-Royce, took one look at the Post-War Maxwell and remarked: "It's a sun-down!" Which is art slang for saying, "It's a beauty."

This artist then went to the telephone and placed his order for one.

But the real great beauty of the Post-War Maxwell was hidden from the eye of this noted artist.

He did not know about the vast improvements made in the chassis, how the electric system has been perfected, how a heavier and masterly rear axle has been used, how Hot Spot and Ram's-horn have given the engine a new efficiency, how the emergency brake has been set up on the transmission shaft, nor a score of others that would make a "mechanical mind" forget his dinner.

It's a greater Maxwell than any of the 300,000 of the same type that grace the highways of the world.

Though a respectable sum has been added in value, the price is only \$985 f. o. b. Detroit.

TUNIS.

Washington, D. C.—Tunis is the subject of the second bulletin of a series issued by the National Geographic society describing "Africa countries that will be in the news, and cities that will be appearing among the date lines in your newspaper."

"Tunis, the capital of Tunisia, situated on the coast of northern Africa, in about the latitude of Norfolk, Va., is considered one of the most beautiful cities of the Orient," says the bulletin, which is based on a communication to the society.

"It has a mixed population of more than 275,000; Arabs, Jews, French, Italians, Sicilians, Greeks and Maltese.

"Tunis was an absolute monarchy until 1881, when the 'Treaty of the Bardo' made it a French protectorate. It is governed by an Arab bey, who is advised by a resident general from France. The latter is in reality chief executive.

"Tunis is called by the Arabs, 'The White Burnous of the Prophet.' Its houses are all flat-roofed and creamy white in color. Minarets point heavenward from every square, and from their tops may be heard the 'call to prayer of the faithful' five times a day: 'Allah is Allah.' There is no God but Allah, Mohammed is his prophet."

"Tunis has changed greatly since 1881. A large and attractive French town has sprung up outside the walls of the native city. Broad boulevards, with rows of palms and various shade trees; large shops, with tempting displays; modern hotels, with every comfort and luxury; restaurants, cafes, and garages for the motors that come in greater numbers every season. Trolleys run in all directions, and Carthage can be reached in 25 minutes.

"Friday is the Arab Sunday, when all the women go in the morning to the cemeteries to pray. One sees hundreds of them chatting together, dressed in their silvery white 'halles' and black face-veils. Many of the women of the wealthier families, instead of a face-veil, wear a broad scarf of heavy dark silk, which covers their face and is held out in front by the arms of the wearer. All she can see is a few steps in front of her feet. These wealthy women are usually followed by several female attendants.

"A tiny donkey with paniers filled with oranges shoves you up against the wall of the narrow street as he passes.

"The undersigned executor, will on Thursday, Sept. 11, 1919, at 1:30 p. m., on the premises to be sold, sell at Public Auction to the highest and best bidder, without reserve, the improved farm of the late Anton F. Freese, located 8 miles southeast of Dixon, 4 miles northwest of Amboy, and 2 miles southeast of Eldena, Lee county, Illinois, and containing about 140 acres of high-grade, tillable land with houses, barns, cribs, well, mill and other improvements. Land produces big crops, but must be sold under will to settle the estate.

TERMS: Buyer will on day of sale give bankable note for ten per cent of price, due March 1st, 1920, without interest. Balance of price on March 1st, 1920, when deed and possession will be given. Purchaser may leave about \$12,000.00 in the farm on first mortgage, due in five years at 5 1/2 per cent. Abstract of title given, and may be seen at the law office of R. H. Scott, Dixon, Ill.

and we wonder what the vender is crying. It sounds weird, but translated means only, "Oranges—sweeter than honey."

"Entering the souks, or bazaars, steaming Turkish coffee is brought in tiny cups, while oriental rugs, silks, jewels, and antique weapons are shown.

"At the slaughter-house there are three separate divisions—one for the Europeans, one for the Jews, and a third for the Mohammedans, where the animal to be killed has to face toward Mecca.

"In the days of Rome northern Africa (Tunisia) was called the 'granary of the world,' for the Roman system of irrigation was marvelous and the soil fertile wherever water was to be had, and it was to be found in abundance in the mountains. The aqueduct, built under Hadrian, about 136 A. D., supplied Carthage with 33 million liters (over eight million gallons) of water a day.

"Today Tunisia has over ten million olive trees under cultivation, and they cover an area of about 500,000 acres.

"April 13 marks the commencement of the Jewish 'Feast of Unleavened Bread,' or Purim, when no leavened bread must be eaten for seven days.

SHARPLY LOWER PRICE RESULT OF CROP REPORT

By Associated Press Leased Wire
Chicago, Sept. 9.—Sharply lower prices in the corn market today resulted chiefly from the unexpected bearish showing of the government crop report. The general selling which took place, however, was also due more or less to prospects of a nation wide strike of stock yard and packing house employees. Reports that owing to labor troubles freight was piling up in eastern ports tended likewise to weaken the corn market. Opening prices which ranged from 1 1/2 to 5 1/2c lower with Sept. 1.61 1/2 and Dec. 1.27 1/2 at 1.29 were followed by a further drop in September and by moderate rallies in December and May.

Oats declined with corn. After opening 1 to 2 1/2c down including December at 71 to 71 1/2c, the market displayed little power to rally.

Weakness of prices of grain and hogs pulled down provisions. Selling, however, was not aggressive.

On the declines, there was free covering by shorts, but no other important demand. The market closed unsettled, 1c to 1 1/2c net lower, with Sept. 1.61 1/2 and Dec. 1.29 1/2 at 1.29 1/2.

Ford Will Operate Electric Power

By Associated Press Leased Wire
Detroit, Mich., Sept. 9.—Henry Ford, who is said to be planning the erection of several large automobile and tractor plants and auxiliary factories in various parts of the country, will operate them entirely by the hydro-electric system it has been announced by his secretary, Ernest G. Liebold.

Many municipalities situated on streams and rivers that can be harnessed will, according to Mr. Liebold, eventually have Ford factories.

It is reported that Mr. Ford and his engineers have devised a new type of generator which is a radical departure from designs now generally in use.

It is planned by Mr. Ford to begin the erection of a number of auxiliary plants on the streams of Michigan shortly, manufacturing at the source of the raw material and providing labor for thousands of men and women. Eventually, it is expected, the system will be extended to various parts of this and other countries, including Mexico and Canada. The various parts, standardized, will be shipped to Detroit and

Dearborn, Mich., for assembling it is understood.

The Canadian assembling plant probably will be located near Windsor, Ont., across the border from Detroit. That for Mexico has not been decided upon. It was stated some time ago that Mr. Ford planned to enter the Swedish automobile manufacturing field, also, and he may use the same power plans there he is contemplating for this country.

Frost Scare Not on Program for Autumn

By Associated Press Leased Wire
Chicago, Ill., Sept. 9.—Frost scares have been removed from the autumn fashion list for 1919.

The annual terror of Jack Frost as the demon crop killer of the American corn belt has almost invariably heretofore reached a climax in September and October, but this year by an unusual combination of circumstances the farmers, as well as dealers in corn are to enjoy virtual freedom from worry as far as the effect of frost is concerned—at least that is the opinion of numerous authorities on the Chicago Board of Trade. According to this opinion, the corn crop of 1919 has matured so much ahead of the average time that danger from frost damage is now a negligible quantity.

Nearly unprecedented steady succession of warm nights and sunny days with nevertheless ample moisture in store has been the chief factor in the wonderful rapid ripening which has blessed the American corn crop this season. About the only bogey yet to be reckoned with in figuring on the corn crop is the possibility of a wet harvest.

How much better than usual the situation of corn is at present in regard to frost may be judged from the fact that whereas the first killing frost stops all further growth of corn, the earliest date of such an event in Chicago during the last twenty-two years has been Sept. 18 and the latest Nov. 23. Inasmuch as a premature killing frost has often wiped out fortunes among heavy traders in corn, and has crippled farm resources throughout great stretches of territory the relief apparently assured this season has a value difficult to exaggerate.
